Welcome to 3rdSUN Solutions

3rdSUN Solutions is an online application development solution provider specialising in:

- Development of complex database-driven websites.
- Two-way SMS application development and integration.
- E-commerce solutions and credit card gateway integrations.
- Electronic customer relationship management solutions.
- Data mining and management systems and services.
- The provision of real-life solutions to business problems utilising the Internet.

Our focus is on empowering our customers by creating customised solutions to complement their business plans. To achieve these goals, we offer a total solution package which encompasses all aspects of a client's digital strategy. Our partnerships with best-of-breed suppliers ensure that we can supply the very best solution to each client.
